

Welcome

Sanson School Facebook page

There is now a Sanson School Facebook page (thanks Gareth for organising this). It will be used to give messages, celebrate successes and promote the school...there are some key rules that need to be adhered to and we need permission to share images (photos or videos) of each child...**Please fill in the return slip and return to school asap.**

Forgotten Fauna Hui

Last week 6 seniors attended an ENVIROSCHOOL Hui at Mt Lees Reserve. They learnt about native NZ fauna (bats, fish and lizards) and were allowed to hold 2 lizards. They made a lizard 'trap' that records the footprints and tail print of lizards that walkthrough the trap - one is on display in the foyer...it was a very informative day - well organised by MDC, Horizons and Enviroschool staff.

Cups and Trophies

Please return these asap so we can send them off to the engravers with the list of new recipients for 2020. It would be great if they came back CLEAN! - Only use Silvo and soft cloths please. Silvo can be purchased from the supermarket or borrowed from school!

Camp

The BOT approved the senior (Y4-8) camp to Pouterere in the Hawke's Bay on December 9th to 11th. We would like the juniors to visit on Thursday the 10th and participate in beach activities (weather permitting) but we are mindful that it is a 3 hour trip, 3 hour stay and 3 hour return. I believe our juniors are capable of this but would like to see what parents think - **therefore please fill in the return slip and return to school asap** to help us with planning ahead.

Facebook Consent

I/we give Gareth Sharp (BOT member) consent to upload images of my child at Sanson School participating in events or activities, eg Christmas Parade, Sports events, etc. Please read the attached guidelines for our positive social media platform encouraging the growth of Sanson School.

Pet Day

This Friday the 30th - all information has been sent home already. Kids need to bring their baking on the day, their animals if they are bringing one and lots of flowers and greenery to make their floral arrangements. Adult supervision for ANY dogs please and cats in cages only for a brief visit! Any questions at all - just ask!

Baking this year may hold a few surprises - there will be a special section for any dishes that don't meet the usual criteria but are worthy of including - if you have a family favourite sweet we would love to see it on display to be judged in the AMAZING section! This could be a chance to showcase your culture e.g. Rewana bread, sweets from other places/cultures...

FOS will also have their BBQ lunch with sausages in bread and juicies. There will be gluten free sausages available as our lunch option. Big thank you to Jen Berquist who will be making a cake to raffle on pet day so remember to bring some money along with you for a ticket. Staff can vouch for Jen's baking - it's beautiful.

Horrible, yucky topics

Please check for nits in all children's hair - I think this is the season they try and return!

Sweaty, stinky students - some of our lovely senior students are having growth spurts - they are running about and getting sweaty and by the end of lunch they absolutely PONG - please make sure all senior students are showering or washing daily, putting on clean clothes and preferably using a roll on deodorant to prevent stinkiness!

Kia kete anō

Junior School Excursion to Pourerere Beach Camp on Thursday 10th December.

I give permission for my child to attend this day trip leaving school at 9.00 am and returning approximately 6.00 pm.

If you are interested in joining us please let Jude know so we can organise transport.
